Creativity, Problem-solving and Teamwork

ABOUT ME

I'm a second year student at Ton Duc Thang University, My major is computer science. I want to become a programming tutor. I have experience in guiding and assisiting IT students. Hoping for a chance to be a part of expert working environtment.

EXPERIENCE

TON DUC THANG UNIVERSITY | 9/2021 - now

Major: Computer science

First year:
GAME BUILDING IN MICROSOFT ARCADE COMPETITION
- Game development with Scratch
- Algorithm design (OOP programming structure)

BUILDING ONLINE WALLET WEBSITE
- Build databases
- Web design with HTML, CSS, JS
- Web development PHP

ASSISTANT SCHEDULE WEBSITE FOR STUDENT
- Algorithm design in Javascript
- HTML, CSS designer

Second year:
DAILY TASK REMINDER WEBSITE
- Algorithm designer in JS (Gantt chart graphic)
- HTML, CSS designer

SCIENTIFIC RESEARCH
- Backend developer with Python(Flask)

HONORS & AWARDS

3/2022

TOP 5 IN MICROSOFT ARCADE Contest

8/2022

2nd prize in 'IT GOT TALENT' Contest

KNOWLEDGE LEARNT

About programming:

- Have general knowledge in languages (Python ,JS, Java,...)

- Ability of a fast language learner

- Have a stable foudation of programming structure

- Experienced in game design (scratch, minecraft,..)

About algorithms:

- Applying different type of algorithm to practical social problems

- Foundation of data structure and algorithms

AI and machine learning:

- Having learned advanced algorithms and design methods

- Apply machine learning models to real-life situations

- Solving bigdata problems

Mathematics:

- Applying to bigdata problems and image processing
